Khine Zar Hein

West Covina, CA | (310) 736-5291 | khinezarhein1@gmail.com | LinkedIn | GitHub | Portfolio

EDUCATION

California State Polytechnic University, Pomona August 2025 — Present
B.S. in Computer Science | Expected December 2027 | GPA: 3.72

Los Angeles City College Associate Degree | GPA: 3.7 | Transferred with Honors February 2024 — June 2025

EXPERIENCE

Full-Stack Cloud Developer Intern (Incoming) — TutorD LLC Starting November 2026

- Joining the engineering team of an ed-tech LMS/CRM platform to build features from tickets and designs, including agentic and generative AI functionality and AWS security work, with TypeScript, Go, Terraform, and Next.js

Software Engineering Research Assistant — Cal Poly Pomona August 2026 — Present

- Co-own the language-assessment side of an eye-tracking platform testing whether webcam gaze data can infer proficiency; rebuilt WebGazer calibration from 9 to 18 points and benchmarked accuracy against a Gazepoint GP3 tracker
- Migrated gaze storage to PostgreSQL with a batched-row schema (50x fewer writes), validated the heatmap pipeline with ST-DBSCAN fixation clustering, and fixed gaze-to-UI attribution with a nearest-element fallback

Website Intern — Yang Management *(placed at LACCD)* July 2026 — Present

- Resolve tech support tickets from departments across LACCD through Freshservice, troubleshooting College CMS and website issues in Drupal, Twig, YAML, and SCSS with IT and Web Services teams
- Audited document ownership across 9 LACCD campuses for a district-wide accessibility initiative and prototyped a Figma component library with per-college theming for the College CMS

Founder & Full-Stack Developer — BurmaLingo April 2026 — Present

React, TypeScript, Tailwind, FastAPI, PostgreSQL, JWT, OpenAI API, Azure AI Speech, Stripe | GitHub | Live

- Architected and launched a 6-level English-learning platform for Burmese speakers on React/TS + FastAPI + PostgreSQL with CI/CD, now serving paying subscribers
- Built GPT-4o IELTS writing scoring, Azure AI Speech pronunciation feedback, a pre-generated Azure TTS listening library served as static MP3 to avoid per-request cost, SM-2 spaced repetition, and end-to-end Stripe billing

Software Engineering Intern — Santa Clara University June 2026 — August 2026

- Ported a Flutter math app to React/Next.js + Firebase and redesigned it into a 5-level, 137-question progression system with real-time tracking, a rebuilt theme-customizable UI, and 3 tiered language-assist levels for bilingual K-5 learners
- Built a Firestore analytics pipeline and teacher dashboard, backed by 62 unit tests at 100% coverage

Tech Fellow — CodePath May 2026 — August 2026

- Mentored ~200 students in CodePath's Applied AI course — completed each of the 9 weekly Python projects in advance to anticipate blockers, then supported breakout-room Q&A during live sessions to unblock students in real time

Open Source Contributor — Submitty (Rensselaer Polytechnic Institute) March 2026 — June 2026

- Merged 3 PRs to Submitty, a production grading platform serving thousands of students and instructors — added Cypress E2E coverage for grade-banner overrides and legal-name privacy protections across roles, and fixed a PHP bug in bulk-upload conflict detection causing silent merge failures

PROJECTS

MLH Production Engineering Hackathon — Flask REST API April 2026

Python, Flask, PostgreSQL, Redis, Nginx, Docker, Locust, pytest, GitHub Actions | GitHub

- Redis caching + Nginx load balancing across 2 Gunicorn containers — sustained 500 concurrent users at 76 RPS with 0 failures; 83% pytest coverage (19 tests), structured JSON logging, Discord alerting, GitHub Actions CI/CD

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, SQL, PHP, HTML, CSS

Backend & Infra: FastAPI, Flask, Express.js, Node.js, PostgreSQL, Redis, Nginx, Docker, SQLAlchemy, Alembic, APScheduler, Supabase, Firebase, GitHub Actions, Vercel, Render

Frontend & Tools: React, Next.js, Tailwind CSS, Vite, Recharts, Cypress, Drupal, Figma, Git, Linux/Unix

AI & APIs: OpenAI API, Azure AI Speech, WebGazer, Stripe, Resend
